

By **LITEYE**

Thermal Imaging Surveillance Systems

- Force Protection
- Situational Awareness
- Border Surveillance
- Coastal Surveillance
- Critical Infrastructure Protection
- Covert Surveillance

The Aquila CCTI

Thermal Imager

Ultra small, ultra light, low-power “discrete” short-range Thermal Imager, IP67 rated. Can be deployed into the smallest, most hard-to-get to places and yet is unobtrusive and almost hidden.

The Aquila RUGG 320

Thermal Imager

Ultra RUGGED, low-power, short-range Thermal Imager, IP68 rated. Designed to survive and be deployed in the harshest conditions.

The Aquila PTZ 640M

Rugged, low-profile Thermal Imaging Surveillance System

640 x 480 17µm Thermal Imager with 100mm motorized lens and visible camera with zoom. 360° continuous rotation, IP67 rated

The Aquila PTZ 640Z

Rugged, low-profile Thermal Imaging Surveillance System

640 x 480 17µm Thermal Imager with 15–100mm continuous zoom lens and visible camera with zoom lens. 360° continuous rotation, IP67 rated

The Aquila PTZ 640 MF

Rugged, low-profile, fully integrated multi-sensor Surveillance System

3 Cameras

640 x 480 17µm Thermal Imager with either 100mm motorized lens or 15–100mm continuous zoom lens, visible camera with zoom lens and situational awareness, WFoV low-light camera.

360° continuous rotation, IP67 rated
