

SOLAR PANELS

CHARGE BATTERIES, ANYWHERE, ANYTIME.

GALVION SOLAR PANELS are lightweight, durable, and extremely portable. They can be carried in the rucksack, and quickly recharge batteries, greatly reducing the weight and expense of batteries needed in the field. Available output ranges from 20W to 280W and 12V to 32V, depending on a soldier or squadron's needs.

KEY FEATURES

- Made with durable, military-grade materials to withstand intense, rigorous use.
- Tested to MIL-STD810G
- Easy to deploy, easy to clean and easy to store
- Provides power in all environmental, weather, and light conditions
- Multiple charging adapters to fit your needs and charge a wide range of devices
- Ability to daisy chain multiple panels for increased power requirements
- Designed, engineered, and manufactured in the United States.

APPLICATIONS

- Soldier systems
- Portable field equipment
- Special operations forward-operation equipment

Available in several colors/patterns:

Black

Khaki

Coyote
Brown

Woodland
